***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after an allowance. Applicant's submission filed on December 12, 2009 has been entered.

***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on December 12, 2009 is being considered by the examiner. Examiner notes that in page 3 of the IDS under "Document", application no. 11/659465 should be 10/659465.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**In the Claims**

The application has been amended as follows:

Cancel claims 21-28.

**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

Claim 1 recites a method of using a public communications network to manage the return of an item purchased by a consumer from a remote direct merchandiser, comprising the steps of *inter alia*: validating the return by matching the return validation code with a pre-authorization code provided by the consumer to the local returns site.

The most closely applicable prior art of record is U.S. Patent No. 6,085,172 to Junger. Junger discloses a computer system at a product return center location which obtains identifying information for a product which is to be returned. This identifying information is then submitted to a remote return approval computer system through the Internet. The return approval computer system may then utilize the identifying information to determine whether the returned product satisfies applicable return criteria. (Col. 2, lines 41-49) However, Junger neither anticipates or fairly and reasonable teaches a method of using a public communications network to manage the return of an item purchased by a consumer from a remote direct merchandiser, comprising the steps of *inter alia*: validating the return by matching the return validation code with a pre-authorization code provided by the consumer to the local returns site.

Hauser et al. (U.S. Patent No. 6,536,659) neither anticipates or is obvious in fairly and reasonable teaching a method of using a public communications network to manage the return of an item purchased by a consumer from a remote direct merchandiser, comprising the steps of *inter alia*: validating the return by matching the return validation code with a pre-authorization code provided by the consumer to the local returns site. Hauser teaches a method and system for handling returned merchandise (col. 1, lines 7-8). Hauser teaches for providing the shopping label that is bar-coded and for facilitating return of merchandise. The customer receives purchased merchandise with which is includes a return authorization code and prepaid shipping label from a merchant. The merchant has elected to pre-authorize customers to return

any purchased merchandise with which the customers are dissatisfied. (Col. 7, line 60-col. 8, line 2)

Claim 11 recites a method of using a public communications network to manage the return of an item purchased by a consumer from a remote direct merchandiser, comprising the steps of, *inter alia*: validating the return by matching the return validation code with a pre-authorization code provided by the consumer to the local returns site. This method is allowable over the prior art of record for reasons consistent with those identified above with respect to claim 1.

Claim 29 recites A system for managing a return of merchandise, comprising, *inter alia*: send a second communication to the retailer identifying the item of merchandise to be returned by the consumer to provide the retailer with advance notification of the return. This system is allowable over the prior art of record for reasons consistent with those identified above with respect to claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARISSA THEIN whose telephone number is (571)272-6764. The examiner can normally be reached on M-F 8:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ryan Zeender can be reached on 571-272-6790. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
